**Please note:**

**I do not ship puppies. Buyers must come to my farm which is not far from the Pittsburgh International Airport and take the puppy home with them.**

**This way we get to meet each other and the puppy gets a personal loving escort to his/her forever home.**

*Please be aware that the provision or submission of this application is in no way a promise or guarantee that a puppy will be available for you to purchase.*

*It is for my record keeping only and will assist me in choosing the best homes possible and to make the best match between potential buyers and puppies that may be available for sale.*

*If you change your mind about wanting a Tipperary Glen after submitting an application to me whether it is because you decide on a different breed, end up getting a pup from a different breeder, or just decide it is not the right time for you to acquire a pup, please let me know as soon as possible so that I can remove your name from my waiting file of applications.*

*I enjoy answering questions about the breed and helping buyers find Glen pups from other reputable breeders in my network. If I am not able to provide you with a puppy this time, please stay in touch or ask for assistance.*

*Please return the completed form to Tipperary Farm (address on first page).*

**I strongly encourage you to return your puppy application by SNAIL MAIL. I get a lot of emails and applications sent as attachments have a way of getting lost.**
